

FUJITSU

Full-featured Tablet PC enhanced with Dual Digitizer

The LIFEBOOK T901 Tablet PC paves a new way of optimizing mobile productivity. Enhanced with the Dual Digitizer feature and 13.3-inch SuperFine Wide XGA display, the T901 gives business users the ultimate freedom of choice between a stylus pen or the use of your fingers on the screen. The bi-directional, high transmissive back-light LED screen also offers 160 degree viewing angle. Change your Tablet PC experience with the LIFEBOOK T901.

Dual Capability for Greater Convenience

Enhanced with the Dual Digitizer feature, navigate between applications or zoom-in on images with two fingers touch effortlessly. Choose between a stylus pen or simply use your fingers on the screen for better ease of use and control. Experience the full capability with precision or convenience with a touch of your choice - pen or fingers.

Superior Performance and Flexibility

The LIFEBOOK T901 has a bi-directional hinge for better screen sharing when making presentations or viewing in tight spaces. A 5-button Quick Launch Panel gives you total control at your fingertips and the range of hot-swappable modular bay device options offer the ultimate in flexibility. The T901 also has an exceptional battery life of up to 9 hours*.

*With standard + optional battery.

Enhanced Features in Slate Mode

The LIFEBOOK T901 features an on-screen status LED and scroll sensor for sup usability. A subtle dotted pattern on ensures a firmer grip with round-sil for comfortable carrying.

Touch, Type, Write.
